**Subject:** Minutes Of Meeting - Hospital Management System(HMS) Project

Minutes of Meetings -MOM

Hi all,

I hope you are doing well.

Thank you for taking the time to attend the HMS project discussion today. The purpose of this meeting was to align all stakeholders on the project scope, understand the module-level design, and discuss the development and deployment strategy.

### Meeting Recap:

We discussed the following key points:

- **Project Overview:**  
A modular, web-based Hospital Management System compatible with Spring MVC and ASP.NET Core MVC frameworks.
- **Team Roles & Responsibilities:**  
Identification of developers, testers, and leads for each module (Patient, Doctor, Appointment, Billing, User Management).
- **Technical Stack & Assumptions:**
  - Java (Spring MVC) or .NET (ASP.NET Core MVC)
  - MySQL or SQL Server for local deployment
  - ORM: Hibernate / Entity Framework
  - No containerization for local setup
- **Module-Level Design:**  
Detailed walkthrough of each module including controller, service, model, and database schema.
- **Deployment Strategy:**  
Local deployment using Tomcat/Kestrel, with configuration via application.properties or appsettings.json.

### Conclusion:

We agreed on the following action items:

- The team will begin drafting the **Software Requirements Specification (SRS)** document for client review.
- Each module will be developed following the MVC architecture and integrated with the database schema.
- Role-based authentication will be implemented to secure sensitive data.

### Next Steps:

- **Task Assignment:**  
Our Team Lead will assign module-specific tasks to developers.
- **Development Timeline:**  
Developers will begin implementation and aim to complete their tasks within the agreed timeline.
- **Progress Tracking:**  
The Project Manager will coordinate with the Team Lead for regular updates.

We'll plan to meet again in 2 days to review the progress and address any blockers.  
Wishing the team all the best for successful execution.

**Regards,**

**Keerthika M N,**
